THE SEROTA COLLECTION PORTLAND, MAINE

Mr. Serota, the well known antiquarian of Portland, Maine, has instructed the American Art Association to sell his collection now on exhibition in its galleries. Mr. Serota began gathering American Furniture in the northeast many years ago before the intensive search that proceeds today, with the result that he has acquired a greater variety in type than is to be obtained at the present time. He has included a recent notable acquisition consisting of many of the furnishings from the dwindling Shaker Community of Sabbath Day Lake, Maine. Much of this property was bequeathed to the Community over a hundred years ago.

The Pilgrim Furniture of the Seventeenth Century is represented by numerous chairs, very varied in type and including Ladder and Baluster Back examples, a finely carved Hickory Armchair very reminiscent of the Carolean Period, and a Daybed carved in a similar manner. Among the Oak and Walnut Chests is one with exceptionally interesting "Sunflower" carving.

The Pine, Maple and Hickory Tables include Butterfly, Tavern, Trestle, and Sawbuck Specimens, one of these, fifteen feet in length, acquired from the Shaker Community. There are, also, a number of fine early Highboys in Walnut and Maple.

The Eighteenth Century is more largely represented with Windsor and carved Mahogany Chairs, singly and in unusual sets. Duncan Phyfe is seen at his simplest and best in a set of twelve irreproachably made Mahogany Chairs. A Carved Mahogany Tête-a-tête given to William Savery, with a strong Chippendale influence, is a fine tribute to the American craftsmanship of that period.

There are numerous small Sewing Tables, Card, Console, Breakfast, Dining and other tables of simple distinction. Fine Bureaux, Desks, Lowboys, Sideboards, Pine Shell Cupboards, and Dressers, Secretary Bookcases, and Highboys of sound craftsmanship demonstrate the great taste and activity of the American Cabinet Makers during the Eighteenth Century. Several Breakfast Tables and a Sideboard by Duncan Phyfe are singularly simple and more than commendable.

A Carved Mahogany Highboy with original brasses, by William Savery of Philadelphia, is undoubtedly the most charming individual specimen in the collection. This is in its original highly polished condition.

Amongst the Early Glass is a small collection of rare Sandwich Cup Plates, Bowls, Lustres, and Lamps.

The Hook Rugs boast of many examples wrought with novel motives and charming colors.

FRANK H. G. KEEBLE.

CONDITIONS OF SALE

I. Rejection of bids: Any bid which is not commensurate with the value of the article offered, or which is merely a nominal or fractional advance may be rejected by the auctioneer if in his judgment such bid would be likely to affect the sale injuriously.

II. The buyer: The highest bidder shall be the buyer, and if any dispute arises between two or more bidders, the auctioneer shall either decide the same or put up for re-sale the lot so in dispute.

III. Identification and deposit by buyer: The name of the buyer of each lot shall be given immediately on the sale thereof, and when so required, each buyer shall sign a card giving the lot number, amount for which sold, and his or her name and address.

A deposit at the actual time of the sale shall be made of all or such part of the purchase prices as may be required.

If the two foregoing conditions are not complied with, the lot or lots so purchased may at the option of the auctioneer be put up again and re-sold.

IV. Risk after purchase: Title passes upon the fall of the auctioneer's hammer, and thereafter the property is at the purchasers' risk, and neither the consignor nor the Association is responsible for the loss of, or any damage to any article by theft, fire, breakage, however occasioned, or any other cause whatsoever.

V. Delivery of purchases: Delivery of any purchases will be made only upon payment of the total amount due for all purchases at the sale.

VI. Receipted bills: Goods will only be delivered on presentation of a receipted bill. A receipted bill presented by any person will be recognized and honored as an order by the buyer, directing the delivery to the bearer of the goods described thereon. If a receipted bill is lost before delivery of the property has been taken, the buyer should immediately notify the Association of such loss.

VII. Storage in default of prompt payment and calling for goods: Articles not paid for in full and not called for by the purchaser or agent by noon of the day following that of the sale may be turned over by the Association to some carrier to be carried to and stored in some warehouse until the time of the delivery therefrom to the purchaser, and the cost of such cartage and storage and any other charges will be charged against the purchaser and the risk of loss or damage occasioned by such removal or storage will be upon the purchaser.

In any instance where the purchase bill has not been paid in full by noon of the day following that of the sale, the Association and the auctioneer reserve the right, any other stipulation in these conditions of sale notwithstanding, in respect to any or all lots included in the purchase bill, at its or his option, either to cancel the sale thereof or to re-sell the same at public or private sale without further notice for the account of the buyer and to hold the buyer responsible for any deficiency and all losses and expenses sustained in so doing.

VIII. Shipping: Shipping, boxing or wrapping of purchases is a business in which the Association is in no wise engaged, but the Association will, however, afford to purchasers every facility for employing at current and reasonable rates carriers and packers; doing so, however, without any assumption of responsibility on its part for the acts and charges of the parties engaged for such service.

IX. Guaranty: The Association exercises great care to catalogue every lot correctly and endeavors therein and also at the actual time of sale to point out any error, defect or imperfection, but guaranty is not made either by the owner or the Association of the correctness of the description, genuineness, authenticity or condition of any lot and no sale will be set aside on account of any incorrectness, error or cataloguing or imperfection not noted or pointed out. Every lot is sold "as is" and without recourse.

Every lot is on public exhibition one or more days prior to its sale, and the Association will give consideration to the opinion of any trustworthy expert to the effect that any lot has been incorrectly catalogued and in its judgment may thereafter sell the lot as catalogued or make mention of the opinion of such expert, who thereby will become responsible for such damage as might result were his opinion without foundation.

X. Records: The records of the Auctioneer and the Association are in all cases to be considered final and the highest bid shall in all cases be accepted by both buyer and seller as the value against which all claims for losses or damage shall lie.

XI. Buying on order: Buying or bidding by the Association for responsible parties on orders transmitted to it by mail, telegraph, or telephone, if conditions permit, will be faithfully attended to without charge or commission. Any purchases so made will be subject to the foregoing conditions of sale, except that, in the event of a purchase of a lot of one or more books by or for a purchaser who has not through himself or his agent been present at the exhibition or sale, the Association will permit such lot to be returned within ten days from the date of sale, and the purchase money will be refunded if the lot differs from its catalogue description.

Orders for execution by the Association should be given with such clearness as to leave no room for misunderstanding. Not only should the lot number be given, but also the title, and bids should be stated to be so much for the lot, and when the lot consists of one or more volumes of books or objects of arts, the bid per volume or piece should also be stated. If the one transmitting the order is unknown to the Association, a deposit must be sent or reference submitted. Shipping directions should also be given.

Priced Catalogues: Priced copies of the catalogue, or any session thereof, will be furnished by the Association at charges commensurate with the duties involved in copying the necessary information from the records of the Association.

These conditions of sale cannot be altered except by the auctioneer or by an officer of the Association.

APPRAISALS AND CATALOGUES. Together with the increase in its exhibition and sales rooms, the American Art Association, Inc., will expand its service of furnishing appraisements, under expert direction, of art and literary property, jewelry and all personal effects, in the settlement of estates, for inheritance tax, insurance and other purposes. It is prepared also to supplement this work by making catalogues of the contents of homes or of entire estates, such catalogues to be modelled after the finely and intelligently produced catalogues of the Association's own Sales.

The Association will furnish at request the names of many Trust and Insurance Companies, Executors, Administrators, Trustees, Attorneys and private individuals for whom the Association has made appraisements which have not only been entirely satisfactory to them, but have been accepted by the United States Revenue Department, State Comptroller and others in interest.
